BOLTON ORCHARD HEATER

The Bolton Orchard Heater is the result of many years of experiment and experience. Today it stands without a peer. It pioneered and blazed the way to fortune for many a disheartened grower. With its simple devices for perfecting and regulating combustion, for deflecting the flame and for the gathering and utilizing of heat, it has reached the highest state of efficiency and practicability.

The Bolton Orchard Heater has an almost perfect combustion, and on a filling of oil will generate as great a heat as is possible in an open burning pot. Many authorities contend that smoke is of benefit, and we agree inasmuch as the smoke acts as a blanket and retains the heat, and at sunrise prevents immediate thaw. No oil-consuming device of the open type can be operated without creating ample smoke for the purpose necessary, but the vital element is the heat immediately generated to hold the temperature at the point of safety against a sudden fall.

We have a large supply of these Heaters on hand. Our prices are Factory Prices.

HARDWARE AND PLUMBING

Campbell Lumber Co.
W. T. MORTON, Prop.
PHONE 131

Earl Gard has sold his property on Third street to Mr. and Mrs. Ralph Halbrook, of Sacramento. Mr. Halbrook has come to Campbell to take charge of the mechanical department in the J. C. Ainsley cannery. He is a man of considerable experience in this work in other parts of the state, and Mr. Ainsley is to be congratulated on securing his services.

Mr. Gard is building a home on his property on Third street.

Locals and Personals

Blaine's Steel Cut Coffee, at 50c.

Miss Janice Baugh is assisting in the Garden City Bank in San Jose this week.

Mr. Geo. Campbell is here from Delta, Utah, for a visit with his daughter, Mrs. H. W. Higbie.

Ralph Evans is down from San Francisco for a two-weeks' vacation with his brother Fred.

Hunter Portus, big, genial boss of the "Coo-ee" ranch, went to San Francisco Tuesday on business.

For Sale: R. I. Red eggs for hatching. \$2.00 for 15 eggs. C. E. Case, 49 S. Central ave., Campbell. 35-2m

The Pundita Circle will resume its meetings March 10, at the home of Mrs. E. O. LaMontagne, on Union avenue.

J. C. Ainsley has purchased the two lots north of his home on Second street, and will beautify that in keeping with his other grounds.

Miss Alice Duncan is at home for a two-weeks' vacation on account of an epidemic of flu and diphtheria in the schools at Rippon.

Mr. and Mrs. G. J. Ray were over from Tracy Sunday, spending the day with Mrs. Ray's mother, Mrs. Hattie Dunham, and family.

High-grade Coffee, evenly ground, chaffless, and in an inexpensive wrapper—that's why Blaine's "Steel Cut" is so good and yet so cheap.

Mrs. L. L. Miracle reports that the post office has established quite a trade in baby chicks, several thousand being sent from here to various points in the western states.

Rev. H. L. Preston was in attendance at the Ministerial convention of Northern California, held in San Francisco this week in connection with the Inter-church world movement.

Mrs. A. F. Freese and Mrs. Edna Kudor went to Auburn for a two-months' sojourn for Mrs. Kudor's health. She expects to return to her duties in the J. C. Ainsley office about the first of May.

Mrs. Walter Stanford and children, of Oakland, accompanied Miss Maxson home Tuesday for a few days' visit with her sisters, Mrs. M. Lanphear and Miss Maxson, the latter having visited there over the week-end.

Mr. William Fuller, of Pittsburg, is doing the sights about the county with his brother-in-law "Brad," Bradford. Mr. Fuller is looking for a pick-up in the business line while escaping the rigors of that "down east" winter.

I have just received a shipment of Men's Dress Shoes. Made of solid leather, and in a dark brown color, English toe. This is the shoe for Young Men, price \$8.00. See them at E. E. Sowers', Shoe Repairing. 35-1f

C. W. Wolfe, superintendent of the new J. C. Ainsley cannery, moved his household goods into the Voss house on Harrison avenue, where he will be close to his work. For the last few months he and his wife have been living in San Jose.

A meeting of the Santa Clara Teachers' Federation has been called for tomorrow (Saturday), by Melvin E. Shippy, of Palo Alto, chairman. At this meeting, it is planned to complete the organization of the county local. The plan is to affiliate with the American Federation of Labor.

Student Body Elects Officers

A meeting of the student body of the Campbell High school was called at 11:15 Monday morning, and the business of electing officers was brought up.

Several rousing campaign speeches were made in favor of Miss E. Page, Miss A. Wiesendanger, Miss Neva Williams, David Price and some others.

The president appointed tellers, and the voting began, ending with these results: President, Miss E. Page; Vice President, H. Kallas; Secretary, Miss Alice Wiesendanger; Treasurer, Emil Mlak; Editor of Oriole, Miss Neva Williams; Business Manager of Oriole, David Price; Assistant Manager of Oriole, Ray Hulsman; Manager Athletics, Fred Heinsen.

Band Benefit

The Campbell Grammar School Band has elicited a great deal of praise and commendation for the rapid progress which it has made, and the part it has taken in providing entertainment for the community.

Now the public is to be given a chance to express its approbation in concrete form. The boys are anxious to provide themselves with uniform raiment of an inexpensive kind, which will give real wearable service, and to that end are giving an entertainment this (Friday) night to start a fund.

The program is as follows: "National Anthem", "Overture", "Old Folks At Home", and "Patrol", by the Band; a one reel film; "Operetta", Girls' Chorus; another film; waltz, "Evening Shadows", Band; two real comedy; and the closing number by the band, a march. The tickets are 25c and 10c.

Club To Hold St. Patrick's Tea

The auditorium of the Campbell Grammar school was well filled Tuesday afternoon with the students and mothers who had come to view the moving pictures and attend the meeting of the Home and School Club.

Two reels were shown, one of the lumbering industry as conducted by modern methods, and the other, scenes in Hawaii, including the growing of pineapples and bananas. Miss Willson furnished music during the pictures.

After the dismissal of the pupils, the meeting was opened with a piano duet by Mrs. Emily P. Gard and Miss Wilma Smith.

The report of the treasurer showed enough money to complete the payments on the moving picture machine, with a few cents' margin. As there was less than a dollar in the general fund, the members voted to hold a fifteen-cent tea on March 17, at the home of Mrs. C. W. Toles, on Santa Clara Road, across from the High school. A general invitation is extended to the ladies to come and enjoy a social afternoon.

Very gratifying reports were given concerning the work of the Community nurse, and many words of appreciation have come to Dr. and Mrs. Merrill and members of the club from various homes where she has been called or sent. In a few instances this appreciation has taken a monetary form, which has been gladly received. One instance is recorded in another column in this issue.

Refreshments of tea and cookies were served by Mrs. W. C. Bohnett and committee, assisted by girls from the sixth grade.

Candy Store Changes Hands

Mr. and Mrs. Ernest Downing have taken over the confectionery and soda fountain business of G. F. Eaton. Mr. Eaton has a position with a candy manufacturing company which takes most of his time, thereby leaving most of the business on Mrs. Eaton's hands. They will move to San Jose as soon as they can locate rooms, which at present are scarce.

Mrs. Ernest Downing and Mrs. B. Downing will manage the business for several months while Ernest continues at his work in Richmond. Later, when the busy summer fountain work begins, he will come to take care of it. Ernest is a Campbell boy, and with that line of trade which is so constantly increasing, with the assistance of his young wife he should make a success of it.

Better Speech Week

All the schools in the United States are observing Better Speech Week this year. Last week was the time which was chosen by the Campbell Union High school. In the Assembly on Monday, it was decided that each class would give a short play on Tuesday as a climax to the observance of the week. On Tuesday a test in spelling was given to every one, Violet Lannis receiving the highest percentage, and Clara Barnes the second. Friday, Violet was awarded a box of candy and a Better Speech poster.

Wednesday was Tag Day. The following words and expressions were to be avoided: "Say, listen," "say, kid," "he don't," "have got," "ain't" and "swell." If these words were used, the guilty party received a little green or red tag with the correct word written on it.

An opportunity was given to sign a pledge which asked one to watch the last syllable of all words, and to correct bad grammar. Most of the students in school signed this pledge, and are trying hard to keep their promise.

Happiness

When we reach the words, "And they lived happily ever after," we put the book down, for that is the end of the story. And it is thus all through life: contentment is uninteresting; happiness is unworthy of history.

How we used to thrill at the stories that "Paw" used to tell us as we rode on his knee; stories of hair-breadth escapes from bears and panthers and "red skins"; stories of being snow-bound in winter and ringed with forest fires in summer, of how a fellow narrowly missed being frozen to death only to be nearly roasted alive. Father had pioneered. We envied "Paw."

But after all, we have seen, and are seeing, a thing or two ourselves. There was war bread (with and without ground glass); remember it? And those mealless and wheatless days; remember them? Then, too, not so long since, there were 90c eggs. And there's still \$1.40 butter and 17½c sugar. Whoops! And we've fled from the teeth and claws of an animal known as a "profiteer," only to be menaced by the dagger of a Bolshevik. And last, but not least, there are the income tax and the "flu."

So cheer up. Somebody's children or grandchildren will envy us. We thought we wanted happiness, but, after due consideration, we perceive there would be no fun in it. We are making history. And even in our worst extremities we've had some good things; for instance, Blaine's Store to trade with—if we had the price, or our credit was good.

A SQAURE DEAL

for the Round Dollar

Which Class Are You In?

"If you want to know whether you are destined to be a success or a failure in life you can easily find out.

The test is simple and infallible:

Are You Able to Save Money?

If not, drop out. You will lose. You may think not but you will lose as sure as you live. The seed of success is not in you."—James J. Hill

THE GROWERS NATIONAL BANK

of Campbell, Cal.

"A Home Bank for Home People."

REMEMBER We Receive New Goods Every Week. Therefore Our Drugs are Strictly Fresh and of the Very Best Obtainable.

Orchard City Drug Co.

The Misses Grace and Lois Bohnett, after visiting the effete east, with its great show city, New York, the elect Boston, somnambulant Philadelphia, society-mad Washington, easy-going Savannah, and the winter resorts of Florida and Louisiana, have come home with a most deep-seated regard for our own delightful clime. Yes, they did enjoy their trip to the limit, but it was not to be compared with their "own home community."

For Sale. Large extension dining table. Inquire at 105 No. 1st St.

Word from "Dad" Atkinson informs us that Thursday E. C. Merrill moved their household belongings to 65, So. 9th St. San Jose, where they now have their own "fig tree", but no "vine", the dry law being in effect. He and Mrs. Atkinson will be glad to see their friends in their new location.

Golden State News TERSELY TOLD

Redwood City.—"Taps" were sounded for the 14 soldier dead of this community at memorial services held in a local theater February 22. The Rev. C. A. Parker spoke on "Washington and Our Heroes of Today."

San Bernardino.—Fifty-one members of the Cleveland, O., Chamber of Commerce were guests February 22 at the national orange show here. They were accompanied by a delegation from the Los Angeles Chamber of Commerce.

Stockton.—A lone bandit held up a one-man street car on the Pilgrim line Sunday night, February 22. The robber searched the car and conductor but failed to find the day's receipts, which had been hidden.

Redwood City.—J. Herral, San Francisco capitalist and promoter, has announced the formation of a new corporation to erect a large glass factory at San Bruno. The factory will cost approximately \$100,000 and will be erected in the near future.

Los Angeles.—Samuel Morgan, 80 years old, was killed February 23 by an electric train at La Verne, near here, when he glanced up from a paper he was reading, saw the train approaching slowly, became confused and leaped in front of it, according to witnesses.

Oakland.—Joe Martinelli, a teamster, 55 years old, was found dead in his room at 526 Third street February 22 from inhaling gas. His door was locked and cracks about the windows stuffed with rags and the gas jet was on. The body was found by a friend, who battered down the door and took him to the Receiving Hospital. Attendants said he had been dead several hours.

Grass Valley.—Gerald Crispin had a solution for the high cost of living—but it was only temporary. He pleaded guilty to embezzling several hundred dollars' worth of merchandise, ranging from eggs to 100 pounds of sugar, and including safety razors and other expensive articles. Crispin, according to the authorities, was employed as a shipping clerk for a large mercantile firm here and so manipulated the way-bills that his thefts were not immediately discovered.

San Francisco.—L. A. Gibbons, a native of this State and formerly a prominent lawyer of this city, died Thursday, February 19, at his home in Reno, Nevada, from acute appendicitis. Gibbons, who was 44 years old, was a graduate of Hastings Law College and moved to Nevada several years ago. He was a life-long member of the Republican party and of the Masonic and Elk lodges. He is survived by his wife, formerly Miss Florence Fairchild of this city, a son, L. A. Gibbons Jr., and a daughter, Miss Virginia Gibbons. The funeral was held here.

Los Angeles.—Captain James McDowell, head of the police traffic bureau, said here that in his judgment, based on accident statistics, women should be barred by law from driving automobiles. Women are equal to men as drivers, he said, but when an emergency arises, "Well, women are women," is his conclusion. Captain McDowell said that 30 per cent of the toll of 891 accidents and 30 deaths in the last six months here involved women drivers.

Martinez.—To satisfy the claims of the Mercantile Trust Company of San Francisco against the Mount Diablo Villa Sites Company, Superior Judge A. E. Dunkel February 21 auctioned off 700 acres of land belong to the latter company for \$219,887, the property going to the trust company of San Francisco. The land was valued at \$250,000. Because the Mount Diablo Company was unable to pay the balance due on the mortgage, the Mercantile Trust Company applied to Judge Dunkel to hold a public sale of the land in order to satisfy the claims of the company.

Oakland.—Twenty-five one-man safety street cars will be placed in operation on the traction lines by June 1, according to announcement of W. R. Alberger, general manager of the San Francisco-Oakland Terminal Railways. The cars will cost a total of \$160,000. The company is expending altogether \$300,000 on new cars ordered from Eastern shops, and new cars and trailers now being constructed in their own shops in Emeryville. More adequate service on several important lines in the city is promised with the placing in operation of the new rolling stock.

Oakland.—That the death of Mrs. Robert Mansfield, of 2330 Eighty-fourth avenue, under the wheels of a Southern Pacific electric train at Havenscourt station ten days ago was largely contributable to the practice of the railroad company in permitting two trains to approach a station at the same time from opposite directions was the finding of the coroner's jury. Mrs. Mansfield attempted to get out of the way of one train and stepped in front of another. Her infant, which she held in her arms at the time, was thrown to one side and escaped death.

CASHIER TRAPS BANK SWINDLERS

Martinez Banker Catches Gypsy Sleight-of-Hand Man Wanted in Many Cities

Martinez.—The famous sleight-of-hand Gypsies credited by the protective committee of the California Bankers' Association with having accomplished bald-faced swindles upon tellers and cashiers in various parts of the State, are believed to have been captured in this city after an auto chase in which deputy sheriffs apprehended a man giving the name of Joe Stevens, and a woman presumably his wife.

Stevens answers the description of Denetro, the plausible crook wanted so badly by the bankers.

P. D. Butcher, assistant cashier of the Bank of Martinez, gets the credit for bringing about the arrests. He had read of the "gypsy" swindle in a bankers' circular. When the couple appeared before his window and asked change for five \$100 bills he told them to wait, stepped into a telephone booth and called the Sheriff's office. Deputies "Dike" Joslin and Don Williams sped to the bank in an auto, arriving just as the gypsies were leaving in their machine. After a thrilling race the fugitives were seized.

It later was charged that the gypsies procured \$100 from L. W. Beebe, assistant cashier of the First National Bank of Martinez by their sleight-of-hand trick.

The trick dates back to the era of Noah, but brought up to date has been worked with great success in California, according to reports to the California Bankers' Association.

The Denetros worked it in this manner: Laying down five \$100 bills, they would ask for change in bills of \$5 and \$10 denomination.

Receiving this, one of the visitors would abstract \$100 or something near that amount while the other held the attention of the teller.

"Please give us the change in gold," was the next request.

"We do not issue gold," would be the answer.

"Then give us back our five one hundred dollar bills," was the next request, as the smaller bills were placed back on the counter. The teller would discover later in the day, perhaps, that the pile of bills of small denomination was considerably "short."

RETAIL MEAT DEALERS MUST REDUCE PRICES

Wholesalers' Costs Have Been Dropping for Three Months

Chicago.—Retail meat dealers throughout the country must reduce their prices as the wholesale price of meat declines or else submit their books to Federal agents for investigation of their profits.

This definition of the Government's attitude was announced here February 22 by Attorney-General Palmer. Instructions to serve the notice on all retail meat dealers have been sent to every United States district attorney, he said.

"For three months the wholesale price of meat has been falling," said Palmer. "The retail dealers have asserted that their supplies were old stock purchased at the higher prices. The old stocks should be exhausted by this time, and unless the price to the consumer comes down we will have to look into the question of the dealer's profits."

The Attorney-General also announced that the terms of the agreement for the dissolution of the allied interests of the five big Chicago packers had been settled and would be filed in Federal court next Friday.

Los Angeles.—Maurice Maeterlinck, poet and playwright, arrived here February 23 from San Diego, and was driven at once to a home prepared for him at Santa Monica, where he and Mrs. Maeterlinck will live while the author develops some scenarios he has contracted to write. "How do you like America?" was the stock question asked him. "I think it's beastly cold," was the reply. Mr. Maeterlinck said he believed the motion picture industry would benefit by the recruiting of competent writers to its ranks, a movement which he said had gained momentum of late. He said he did not know how long he would be here, but thought it would be several months.

HOLY LAND WATER USED TO CHRISTEN SON OF RAMSAY

London.—King George and Queen Mary attended the christening of the son of Commander Alexander Ramsay and Lady Ramsay, formerly Princess Patricia of Connaught, at the Chapel Royal February 23.

The water used in christening the infant was drawn from the Jordan by the Duke of Connaught when the British crossed the river in the advance of 1917.

GOMPERS FLAYS PLEA FOR LABOR NAT'L PARTY

Result Would Be to Defeat Friends of Workingmen, Union Chief Says

Washington.—Formation of a political labor party would be "detrimental to the interests of labor and exactly in line with that which is most ardently desired by those who seek to oppress labor," Samuel Gompers declared in a letter to William Mitchell of Terre Haute, a leader of the Indiana State Labor Party.

Gompers wrote in reply to a telegram from Mitchell and his associates supporting the action of the Indiana State Labor Party in opposing the political declaration of the American Federation of Labor calling on organized workingmen to elect their friends and defeat their enemies.

Mitch's telegram declared in favor of making the fight solely through a labor party.

Gompers' letter says: "By what right do you assume to declare the work and the policy of the American Federation of Labor to be impractical? Surely the results achieved in the interests of the workers demonstrate the utter fallacy of your assumption."

"By your course you declare the practicality of the course you declare you will pursue. What experience have you had with your political party upon which to base so absurd a claim?"

"Of this one thing you may rest assured, that the day of reckoning is at hand for all of those who are in antagonism to the cause of labor, and for those who are subtle and equally guilty, even though they clothe their actions in the robes of pretended friendship."

"When you shall have learned the lesson of the real struggle of labor and the cause for which our movement stands, you may become penitent for the gross injustice you have done by your pretension and your course."

"The effect of a separate political labor party can only be disastrous to the wage earners of our country and to the interests of all forward-looking people. The voters that would go to a labor party candidate would, in the absence of such candidate, go to the best man in the field. In no case would they go to an enemy of labor."

"There can be no hope for success of labor party candidates. The effect, therefore, of a political labor party, will be to defeat our friends and to elect our enemies."

"Labor can look upon the formation of a political labor party only as an act detrimental to the interests of labor and exactly in line with that which is most ardently desired by those who seek to oppress labor."

"The welfare of American humanity demands in this hour of national crisis that there be success at the polls. This is no time for experimenting with political theories which are proven false at the outset. The workers of America must use the tactics of success. They must have results."

"Results will not be obtained by injecting a Labor Party, so-called, into the struggle."

"Those who are determined to be blind to the facts of the present and past will, of course, rush on to disaster and calamity. This the American labor movement will not do. It rejects and repudiates the fallacies of blind theories and will have nothing to do with those treacherous follies that are suited only to the purposes of labor's enemies."

"Your telegram is an affront to the labor movement and an assault upon the interests of that great body of Americans who are determined that the present campaign shall result, not in the destruction of our liberties, but in the opening of the way to national progress and the enlargement of opportunities for human welfare, safety and happiness."

7 MILLION U. S. FARMERS ENTER POLITICAL ARENA

Washington.—Entrance of the 7,000,000 American farmers as a unit into the political arena was forecast when the National Board of Farm Organizations decided that all Presidential candidates should be put on record as to their attitude toward the questions in which farmers are interested. Each candidate will be asked to answer a question so that his position will be unmistakable.

C. O. Drayton, president of the Farmers' Equity Union, of Greenville, Ill., warned the conference to be "careful of the kind of co-operation we adopt." The greatest menace today to the free institutions of America, he said, was the "organized labor union trust," but an even greater menace would be "an organized farmer trust."

U. S. FLIER KILLED IN 1200- FOOT FALL IN TEXAS

Eagle Pass, Texas.—Second Lieutenant Horace M. H. Corey of Flight A, Ninetieth Aero Squadron, U. S. A., was killed here February 23, when his airplane fell 1200 feet, after suddenly bursting into flames. Corey was 28 years old. His home was in Chicago. He came here from Kelly Field, San Antonio, and previously had been stationed at Rockwell Field, San Diego, Cal.

\$264,000 LEFT TO ORPHANS OF S. F.

Host of Claimants Fail in Court Attempt to Win Kelly Fortune

San Francisco.—Efforts to invalidate the will of John Kelly, by which \$264,000 of his estate was left as a fund for orphanages in this city, have failed. In the Superior Court of Sacramento a decree of distribution has been signed, despite legal opposition on behalf of a score of claimants to kinship.

This decree was pursuant to a decision last November by Superior Judge Peter J. Shields in Sacramento sustaining the will, which provided a fund to be known as the "John Kelly Orphan Fund." By its terms the estate is to be divided in equal shares for Catholic and Protestant orphanages of San Francisco.

Kelly was a pioneer of this State. He was at one time a friend and gardener to United States Senator Leland Stanford. In his will was no mention of any relatives. In testifying while the estate was in litigation Mrs. Caroline Davis, who cared for Kelly up to the time of his death, said that Kelly had told her he did not have an heir in the world.

When the will was filed for probate, however, more than twenty claimants to relationship came forward. They responded from all parts of the United States and Ireland. Three principal groups were established, headed by Catherine Kiernan of Modesto; Sarah Martin of Ireland, and Mrs. Margaret Diviny of Sacramento.

Judge Shields in his decision upholding the will ruled that the claims of contestants to relationship were too vague to admit of recognition. In the opinion of the Court Kelly's whole ancestry and family connection were "involved in such doubt that no particular person could be said to be his heir."

Kelly was known as a shrewd investor and observer. He accumulated his fortune by speculation in bonds, stocks and swampland certificates, and at one time was engaged in lending out money to State employees.

The total value of the estate is placed at \$285,000, represented mostly by property holdings.

WIFE ENDS LIFE IN STATEROOM

Tragedy Follows Quarrel Aboard Steamer Governor

San Francisco.—Following a quarrel with her husband because he had been drinking, Mrs. Herbert R. Baby, pretty twenty-two-year-old wife of H. H. Baby, automobile dealer of Bellingham, Wash., committed suicide February 22 in her stateroom on board the Admiral line steamer Governor when the vessel was off Point Arena.

The Babys were on their way from Seattle to Los Angeles, where Baby was going to enter the automobile business. Before luncheon Baby is said to have taken several drinks and quarreled with his wife. She locked the door to their stateroom and opened the window half-way to talk to him.

After quarreling for several minutes, Mrs. Baby said, "Well, I'll end it all now," and then she reached into her husband's suit case, seized a revolver and fired one shot into her heart, falling back in a sitting position on the settee in the cabin.

Baby cried out and Mrs. Emma Long, the stewardess on the Governor, who was a few cabins away, and Meyer Holzer, the purser, ran to the cabin. Mrs. Baby was dead when they broke in the door. The bullet had plowed through her body and lodged in the wall of the cabin. A naval physician on board who was called at once said she had died instantly.

Baby was held as a coroner's witness by Deputy Coroner Michael Brown, who met the Governor and conducted an investigation. He said that he knew of no reason for her act, that they had been very happy, and her suicide had come like a bolt out of a clear sky.

Passengers on board the Governor told the police that the Babys had seemed very friendly during the voyage and that Mrs. Baby had been very cheerful and good natured. They could advance no theory for her act.

The Babys had recently been attending the races at Tijuana. On the last trip of the Governor northbound they returned to Seattle, staying only a few days.

Deputy Coroner Brown removed the body to the morgue.

THIRTY-DAY LIMIT TO PRESIDENT'S ABSENCE

Washington.—Representative MacArthur, Republican, Oregon, introduced a bill proposing that thirty consecutive days' absence from continental United States or disabling illness for a like period on the part of a President would cause the Vice-President to assume the duties of the office. The measure would become effective March 4, 1921.

REAR-ADMIRAL EDWIN PEARY, EXPLORER, DEAD

Washington.—Admiral Robert Edwin Peary, retired, Arctic explorer and discoverer of the North Pole, died at his home here February 20 from pernicious anemia from which he had suffered for several years. Arrangements for the funeral have not been completed, but he will be buried with full naval honors.

Admiral Peary submitted to a blood transfusion at a hospital here ten days ago. He later was removed to his home and his condition then was reported as somewhat improved. He gradually grew weaker, however, until the end came. Dr. H. F. Strine, the admiral's physician, disclosed that the transfusion this month was the thirty-fifth to which Admiral Peary had submitted within two years.

Robert Edwin Peary, intrepid Arctic explorer and discoverer of the North Pole, although born in Pennsylvania and in later life a resident of Washington, D. C., was claimed as a son of Maine.

The Roosevelt, the ship that carried the Peary party north through the frozen waters to the Pole, was built in a Maine shipyard and Peary for many years lived during his summers on an island in Casco Bay, near Portland, Me. In fact, he owned several islands in that neighborhood. Many members of Peary's crews were natives of Maine.

It was September 13, 1909, that Commander Peary cast the first shadow of suspicion over the claims of Dr. Frederick A. Cook that he had discovered the North Pole. "I have him nailed," he telegraphed Mrs. Peary, who, from the first, had disbelieved Cook's story of finding the Pole.

It was September 6, 1909, that Peary's announcement that he had "nailed the Stars and Stripes to the Pole" was received in America. That was five days after Cook had sent a telegram to Denmark declaring he had found the Pole.

Born in Cresson, Pa., May 6, 1856, Peary got his early education at a North Bridgeton, Me., academy and later entered Bowdoin College, from which he was graduated in 1877. He entered the United States navy in 1881 as a civil engineer.

Peary's most serious attempt to reach the pole, with the exception of the trip on which he actually reached the goal, was on his eighth journey, begun in July, 1905. It was on this journey that he and his party traveling on the Roosevelt, encountered so many obstacles and suffered such privations.

Peary reached "farthest north" April 21, 1906, just three years to a day before the day Cook ascribed as his date of alleged discovery of the pole. Peary's readings showed he was then at a latitude of 87 degrees and 17 minutes.

The final dash for the pole that at last proved successful was started July 6, 1908. His date of discovery was given as April 6, 1909.

In recent years Commander Peary had lived in Washington. He was married in 1888 to Miss Josephine Diebitsch of Fryburg, Me. She accompanied him on several earlier Arctic expeditions and it was in Greenland in 1893 that Marie, their eldest child, was born. There also was a son, Robert E. Jr., now 20 years old.

SAMUEL B. WHITEHEAD VICTIM OF HEART FAILURE

San Francisco.—Samuel B. Whitehead, a former auctioneer and horseman, died at his home, 214 Steiner street, February 19, from an attack of heart failure.

Whitehead, who was 88 years old, was born in Wilsonville, Wayne county, Pa., and came to California in 1856. He is survived by his widow, Mary J. Whitehead; four sons, Albert D., George W., Harry and Samuel B. Jr., and a daughter, Mrs. Fred C. Jones, all residents of San Francisco. The funeral will be held tomorrow morning.

Whitehead was a well-known race track operator in the old days and was interested in the old Bay District and Emeryville tracks.

NEW YORK BIGGEST CITY IN WORLD; HAS 7,000,000 PEOPLE

New York.—Estimates on New York's census returns for 1920 give the city more than 7,000,000 inhabitants, according to census officials. The population of the metropolitan district, which includes suburbs not actually belonging to the city, is said to exceed 8,500,000.

These figures would make New York indisputably the biggest city in the world, London coming second with about 1,000,000 less both for the city proper and the London metropolitan area.

POPE'S AID TO EUROPE NEEDY NOW \$1,000,000

Rome.—The Pope's subscription for the relief of poor children in Central Europe has reached \$1,000,000.

GIRL OF 16 SLAYS COUSIN

Ogden, Utah.—Jennie Scradino, 16 years of age, is under arrest here, charged with the murder of her cousin, Mike Tearnan. She says she threatened to kill her unless she married him.

FLORIDA AN OASIS FOR NORTHERN RICH

Why Should They Worry Over California Vineyards In Miami—Whisky \$1.00

Miami, Fla.—Miami is agog today with tales of smuggling that bring memories of the old days when pirates infested the West Indies a century ago, the romantic period when brigands of the high seas daily ran the gauntlet of revenue officers and brought rich cargoes into Florida.

In every club, hotel, restaurant and cafe people are discussing thrilling stories of how Captain K— or Skipper L— slipped through the net of revenue cutters and landed with a rich cargo. And as these people talk they drink.

They drink cargoes that have been smuggled past the Federal authorities.

The prohibition amendment did not stop the sale of liquor in Florida; it merely boosted the price and filled the country with an interesting topic of conversation.

It is not difficult to secure a drink of whisky in Florida. It cannot be said that the stuff is sold openly, but a pleasant assurance that you are "all right" and a dollar bill will bring a highball in almost any restaurant.

City and state authorities are not "against" the smuggling. They agree with the people that the nation should be "wet" and make no great effort to arrest the booze pirates.

In one county the Sheriff is supposed to be in league with the liquor runners.

"Florida didn't vote to make this nation dry," said one city official when asked about the situation.

Last week in Nassau seven ships came to port with cargoes of whisky—bonded whisky from Kentucky and Peoria. The cargoes are removed and the whisky disappears. Sometimes the liquor is brought close to the three-mile limit and then anchored to a buoy to be picked up by fishermen.

Outside Miami there is a series of buoys marking the channel. A party of revenue officers went out to change the markers. Deep in the water, attached to the buoy, they discovered a case of whisky.

In Miami a sporting club has been organized. It is called the Bimini Rodes Gun Club by some, but more often referred to as the "Forty Rod and Gun Club." It takes forty minutes to reach Bimini from Miami. Small steamers are chartered daily for the trip. It was in Bimini that Ponce de Leon "discovered" his fountain of youth. The fountain is still flowing.

Whisky can be purchased in Miami for \$10 a quart. The country clubs, the cafes, the hotels, all sell it.

THROGS WATCH MAN END LIFE

Ex-Builders' Secretary Shoots Himself, and Falls From 7th Story

San Francisco.—Stepping out on the fire escape on the seventh floor of the Hotel Irwin, 108 Fourth street, Sunday night, February 22, Arthur H. Bell, former secretary of the Builders' Exchange at Third and Jessie streets, committed suicide by shooting himself in the head with a revolver and his body fell over the guard rail to the street.

According to his friends and to attendants of the hotel, Bell had been moody for several days, and Sunday passed most of the day sitting in the hotel lobby. Shortly after 9 o'clock he went to his room.

The sidewalk was thronged with passersby who were horrified to see Bell step out of a window to the fire escape, press the revolver to his head and fire. His body swayed a few seconds and then fell over the rail. He was dead when picked up.

Bell resigned his position as secretary of the Builders' Exchange two weeks ago and told acquaintances he expected to leave for Southern California this week. Papers found on his person show that he has relatives living at 1803 Fifth avenue, Spokane, Wash.

PANAMA GOVERNOR FORBIDS IRISH DANCE

Panama.—Governor Harding February 21 prohibited the Friends of Irish Freedom from holding a dance at the Government Hotel Tivoli on the ground that funds resulting from it would further the cause of the Irish republic, thus converting a social into a political event. More than a thousand persons who were disappointed decided at a mass meeting to take legal action.

Long Beach.—Richard F. Stivers, 18, lost a baseball down a sewer manhole. When he lit a match and thrust it down the opening to try to glimpse the ball there was an explosion that blew four manhole covers from nearby sewer openings high into the air. The boy is expected to die. Stivers came here from Glendale, Iowa, for a vacation.

War Risk Insurance

Col. R. H. Hallett, Assistant Director
of the Bureau of War Risk Insurance,
assured Senator James D. Phelan today
that all delayed compensation claims of
service men in the United States hospi-
tal at Palo Alto would be cleared up
in 3 weeks or ten days, following the
sending of a special representative of the
bureau to Palo Alto, which action was
taken at the request of Senator Phelan.
Col. Hallett has received a list of all
claims for which necessary papers have
been filed. Other cases are now being
put into proper shape for adjustment.
He said as fast as the records are made
up, arrangement for proper settlement
will be made.

Onton sets at Blaine's. The
pound, 15c.

Mr. W. J. Burns, father of Jas. G.,
was quite seriously hurt while working
with the wrecking crew on the old
grammar school building. He was caught
by some of the falling timbers, gashing
his head and crippling his back. Dr.
Merrill was called and rendered aid, but
as we go to press the extent of his in-
juries could not be determined.

Up Against It.
"How are you getting along with the
semaphore system in Plankville?"
"We'd get along all right," said the
Plankville policeman, "if we could just
keep people from stealing our sema-
phores."

FARMER'S INCOME SUBJECT TO TAX

Gains for 1919 Must Be Figured
Under U. S. Law—Returns
Due March 15.

LAND SALE PROFITS TAXABLE.

Necessary Farm Expenses May Be
Deducted—Special Form for Farm
Income—Cash or Accrual
Basis for Computing.

A farmer, shopkeeper, or tradesman
must figure up his net income for 1919;
and if the farm or business income
plus his other income was sufficient to
require an income tax return a com-
plete return must be filed with the col-
lector of internal revenue by March 15.
A farmer should ascertain the gross
income of his farm by computing all
gains derived from the sale or ex-
change of his products, whether pro-
duced on the farm or purchased and
resold.

Farm Expenses.
From his gross income a farmer is
allowed to charge off all of his neces-
sary expenses in the conduct of the
farm during the year. These include
costs of planting, cultivating, harvest-
ing and marketing. In addition to
these costs he may deduct money spent
for ordinary farm tools of short life
bought during the year, such as shov-
els, rakes, etc. Also, the cost of feed
purchased for his live stock may be
treated as an expense in so far as this
cost represents actual outlay, but the
value of his own products fed to animals
is not a deductible item.

Other farm expenses allowable are
the cost of minor repairs on buildings
(but not the dwelling house), on fences,
wagons and farm machinery; also bills
paid for horseshoeing, stock powders,
rock salt, services of veterinary, insur-
ance (except on dwelling house), gaso-
line for operating power and sundry
other expenses which were paid for in
cash.

As to hired help, all the productive
labor is a deductible expense; but the
wages of household servants, or help
hired to improve the farm, as in tree
planting, ditching, etc., cannot be
claimed against earnings. A farmer is
not allowed to claim a salary for him-
self or members of his family who
work on the farm.

Wear and Tear.
Purchase of farm machinery, wag-
ons, work animals, etc., also the cost
of construction or extension of build-
ings, silos, fencing, etc., should be con-
sidered additional investments in the
farm and are not proper deductions
against income.

A reasonable allowance may be
claimed for wear and tear on farm
buildings (except the farmhouse),
fences, machinery, work animals, wag-
ons, tanks, windmills and other farm
equipment which is used in the con-
duct of the farm.

As to autos and tractors, the cost of
these is not an expense, although the
cost of their upkeep is an allowable
deduction, if the machines are used ex-
clusively for farm purposes and not
for pleasure. Also, in such cases, a de-
duction for wear and tear is allowed.

Farm Losses.

The loss of a growing crop is not a
proper deduction from income, inas-
much as the value of the crop had not
been taken into gross income. The
loss of a building or of machinery
through storm, lightning, flood, etc., is
an allowable deduction, but care should
be used to ascertain the correct loss
sustained, as restricted by income tax
regulations.

No deduction is allowed in the case
of loss of animals raised on the farm,
but a loss is deductible from gross in-
come if the animals had been pur-
chased for draft or breeding purposes.
Shrinkage in weight or value of farm
products held for favorable market
prices cannot be deducted as a loss, for
the reason that when such products
are sold the shrinkage will be reflected
in the selling price.

Sale of Farms and Land.
The value of agricultural lands has
been jumping during the past few
years, and during 1919 many owners
sold out part or all of their lands at
big profits. All such gains constitute
income and must be taken into the net
income for the year.

Any person who sold part of a farm
or ranch, or part of a parcel of land,
must also show any gains realized by
the sale.

The method of figuring gains and
losses on such transactions is pre-
scribed in the Income Tax regulations,
copies of which may be secured from
Internal Revenue Collectors.

Forms for Returns.

The Internal Revenue Bureau has
issued an improved Form 1040F for
the use of farmers. This form, to-
gether with Form 1040A or 1040, will
give the farmer explicit information
as to how to properly figure his net
income for 1919.

There are two methods of figuring a
farmer's income tax return this year.
He may make his return on the basis
of the difference between the money
and goods received for his products
and the cash paid out for actual allow-
able farm expenses within the year.
Or he may make his return on the ac-
crual basis, which means computing
the receipts and expenses that pertain
to the taxable year, excluding income
earned and expenses incurred in pre-
vious or succeeding years.

HIRAM JOHNSON, candidate for presidential nominee of the
Republican party, has many friends and supporters in other parties.
For instance, G. C. Bradford, a staunch Democrat, of San Jose, is out
boosting for the membership of the "Johnson for President Club of
California," circulating cards and securing membership signatures.
Mr. Bradford says that this is a fairly easy task, as most of those
spoken to are more than willing to join the Club regardless of their
political party affiliations. The same story comes from other states,
which tells of an increasing popularity of Johnson, for President.

New Principal Assumes Duties

Mr. Richard Rodriguez arrived last
week from Kelseyville to assume the
duties of grammar school principal, be-
ginning his work Tuesday. Altho on
the job only a few days he has the work
well in hand.

Being of an athletic and active nature
he will be of assistance in directing the
school's play as well as its work.

He has been very instrumental in or-
ganizing a union district and increased
the efficiency of his school at Kelsey-
ville so he is well prepared to be of
assistance if consolidation is carried out
here.

He was very well pleased with Lake
County but said this was an earthly
paradise.

Mr. Rodriguez is already a press sub-
scriber, declaring that that is the best
method of helping him to become ac-
quainted and boost the town.

Frank Mendel To Graduate

Frank Mendel, another of Campbell's
young men who has made a remarkable
school record for himself and reflected
credit on our local schools, will gradu-
ate from Stanford the latter part of this
month doing a part of the fifth year
work in this quarter of his fourth.

Owing to his excellent showing in his
engineering course, Prof. Ryan, of the
electrical engineering department has
recommended him for the two year
course at the General Electric plant at
Schenectady, N. Y.

Plans have been practically completed
so that Frank will leave for the east ear-
ly in April. He has done very well and
we are all justly proud of him and con-
gratulations are in order for the whole
family.

Young Couple Married

Charles Hancock and Marvel Baum-
gartner were married in San Jose yester-
day morning, and left for Los Angeles
taking their honeymoon trip by boat.
Both young people are popular Camp-
bellites, and their many friends wish
them much joy and happiness.

Locals and Personals

Mr. and Mrs. R. W. Kennedy are
enjoying a visit in Los Angeles with their
daughter, Mrs. Ralph Spaulding.

Mr. and Mrs. A. C. Blood of St. Louis,
Mo., are visiting at the home of their
daughter, Mrs. Winfield Turner of Los
Gatos Road.

Winfield Turner has about concluded
negotiations for the sale of his property
on Los Gatos Road to Tony Ban. Mr.
Turner is looking for a larger acreage
in this section as he likes this locality.

Mrs. W. C. Bogen is the newly elected
president of the San Jose day nursery.
According to report made by Mrs. Harry
Nichols, 4,483 children had been cared
for by the nursery, which is doing ex-
cellent work for both the mothers and
children.

Miss Hardin, of the History depart-
ment of the Campbell Union High School
was taken ill last week, and found to be
suffering from nervous breakdown. She
has been absent this week, resting at
her home in Alameda, but expects to
resume her duties here next week.

A. H. Osborn, who has been foreman
for Wm. Dooley on his ranch on Santa
Clara Road, has taken a position to do
tractor work on the former McKagney
property on Rincon Ave. His new loca-
tion carries with it a substantial increase
in salary and much better housing ac-
commodations. Mr. Dooley has leased
his ranch to Mr. Dow, who bought a
part of the Dutard tract.

The ladies who braved the weather
Monday afternoon and attended the
Country Woman's Club were well re-
warded for their efforts. A very interest-
ing discussion of the Irish situation and
sale of bonds in this country, preceded
a very comprehensive paper by Mrs. H.
L. Preston on the "Interchurch World
Movement; the first concerted effort of
the Protestant churches toward the ac-
complishment of their common aims,
and to eliminate so much overlapping
work in all branches of their endeavor.

He Likes Our Community Spirit

A few weeks ago a gentleman and his
son, whose home is in San Francisco,
came to the Campbell Hotel to remain
for a time, as the wife and mother was
in a sanitarium in Los Gatos, and the
husband had been unable to find a lodg-
ing in that place.

Afterward he said that it was much
against his wishes, and he felt at the time
that he had almost severed connection
with civilization.

Both he and the boy were taken with
influenza, and beside the care of the
physician, the community nurse attended
them. So grateful was he for the care
and attention, and the spirit which it
showed was alive in our community,
that he gave ten dollars to our Nurse
Fund. He remarked that when he found
that he had a doctor next door, and the
care of a nurse three times a week pro-
vided by the people of the vicinity, he
thought it would be a good place in
which to live, and when his wife grows
well enough to leave the sanitarium he
hopes to come to Campbell to make their
home.

The nurse has almost completed her
second month in this field, and as the
first pledges were taken for only four
months in order that we might see a
little of the "worth-whileness" of such
a person in our neighborhood, it will be
necessary soon to make a new canvass
for longer-term pledges.

The Home and School Club was in-
strumental in getting the nurse, and has
handled the financial end so far, but to
be a truly community affair, there should
be a general committee in charge, and
that is the wish of the members, and
some discussion along that line was
taken at the last meeting.

At present, we have the nurse Monday
and Wednesday mornings and all day
Friday, for which we pay \$40 per
month. It is desirable that a large num-
ber give a small sum toward her support
and if more money is raised than the
\$40, we could have the benefit of more
time.

Let every one co-operate in this mat-
ter of health conservation, and be ready
to help a little when the question is
presented, and it will add another in-
ducement to people to choose this com-
munity in which to make their homes.

"The Roof of America"

The Continental Divide, from which
mountain streams flow west to the Pa-
cific, and east and south to the Gulf,
will be shown in all its natural colors in
Prizma's latest picture, "The Roof of
America," at the L. O. O. F. hall in
Campbell, Saturday March 6, manager
Charles A. Kasco, announces.

The American watershed in northern
Montana, with its valleys half a mile
deep carved between mountains reach-
ing an elevation of 10,000 feet, and its
numerous lakes reflecting nature's won-
ders, has but recently become accessi-
ble to tourists. American enterprise has
established several unique hotels and
chalets as resting points in these gar-
dens of the sky.

Yet with all these modern improve-
ments to assure the comfort of those
traveling through this picturesque region
there are many Americans who will be
unable to enjoy its pleasures in person.

It remains for Prizma, with its remark-
able process of recreating nature in all
its colors, to bring to the public faithful
reproductions of America's playgrounds.
"The Roof of America" is full of rare
offerings of natural beauty formed among
the clouds of the Continental Divide.
The lakes form magnificent mirrors that
reflect in detail the snow-capped peaks
of the Montana Rockies, and the Black-
feet braves in their native costumes, add
a colorful touch to the picture. Adv.

Returned From Honolulu

The Geo. E. Hyde and R. H. Hyde
families returned from Honolulu Tues-
day evening, after a most delightful
vacation about the Islands. They en-
countered some rough "roads," but as
George E. says "we never missed a
meal." They were "in" on several
special affairs of the Kanaka society,
one of them being a banquet, (spelling
doubtful) pronounced by Ralph like
"louoo-wow." Wow, would best ex-
press it.

On their return trip they brought
10,000 tons of raw sugar, which helped
to give them a real sweet time.

Notice to Creditors

Estate of Fritz Gelb, Deceased
Notice is hereby given by the undersigned
Administrator of the estate of Fritz Gelb, de-
ceased, to the creditors of and all persons
having claims against the said decedent, to
file them, with the necessary vouchers, in the
office of the Clerk of the Superior Court in and
for Santa Clara County, California, within four
months after the first publication of this
Notice, or within said period to exhibit the
same, with the necessary vouchers, to the said
Administrator at his place of business for said
estate, to-wit: At the law offices of S. G.
Tompkins and Brooks Tompkins, Rooms 3-8
Aulzer's Bldg., San Jose, in the said county of
Santa Clara.
San Jose, California, this 2nd day of March,
A.D. 1920.
Amos O. Williams, Administrator of the Es-
tate of Fritz Gelb, Deceased.
S. G. Tompkins and Brooks Tompkins,
Attorneys for the Administrator.

NOTICE

No. 11572
Treasury Department
Office of the Comptroller of the Currency
Washington, D. C., January 9, 1920.
Whereas, by satisfactory evidence presented
to the undersigned, it has been made to appear
that The Growers National Bank of Campbell,
in the town of Campbell, in the County of Santa
Clara, and State of California, has com-
plied with all the provisions of the Statute of
the United States required to be complied
with before an association shall be authorized
to commence the business of Banking;
Now, therefore, I, John Skelton Williams,
Comptroller of the Currency, do hereby certify
that The Growers National Bank of Campbell,
in the town of Campbell, in the County of Santa
Clara, and State of California, is authorized to
commence the business of Banking, as provided
in Section fifty-one hundred and sixty-nine of
the Revised Statutes of the United States.
In Testimony whereof, witness my hand and
Seal of office, this ninth day of January, 1920.
[Seal] JNO. SKELTON WILLIAMS,
Comptroller of the Currency.
First Pub. Jan. 23, 1920.
Last Pub. Mar. 26, 1920.

New Garage For Campbell

I. A. Grim, who for the past year has
been head machinist at the Campbell
Garage, is temporarily established on
Dillon avenue, where he is serving his
friends and patrons with his old-time
promptness and courtesy.

Auto owners of this community who
know of his ability are already crowding
him with work.

He is ably assisted by Millard Trone,
until recently with the Campbell Garage
and Campbell-Collins, of San Jose, and
who served Uncle Sam in a shop of the
Motor Transport Corps.

Arrangements are being made where-
by Mr. Grim will soon have an up-to-
date plant, where he can handle all
kinds of auto, truck and tractor repair-
ing. His friends say, "He delivers the
goods."

The Near East drive which is being
conducted in this community under the
direction of Mrs. I. W. Snow, is pro-
gressing well, and she anticipates that
the quota for this district, which is
\$1,000, will be reached. Up to Thurs-
day noon \$760.50 had been contributed,
in cash and pledges. There was some
confusion in regard to the Cambrian
territory as to where their donations
were to be credited, but it seems they
should be made here, as before.

Ellis Preston went to San Francisco
last week to take treatment for a partial
paralysis of the left side. Recently he
sprained his arm, which failed to recover
properly, and has become worse. Dur-
ing his absence of a month, his garage
will be in charge of C. Mickleborough,
an experienced man in that business,
who has been assisting in the manage-
ment for several weeks. Ellis's friends
wish him a speedy recovery that he may
soon resume his business.
